

## Environmental Policy

### Our Vision for the Environment

Safpro Industrial Supply Co's services are designed to help our Clients benefit from improved environmental performance, manage their environmental impacts, control their environmental risks and make more efficient use of resources. Our company operations are also designed to protect and nurture the environment.

Our vision for the environment is to apply the principles of best practice, creativity and innovation to our services and company operations, to minimise the adverse impacts of our functional activities through the prevention of pollution and to achieve continual improvements in our environmental performance, in line with our commercial aims.

### Our Policy Commitments

In working towards this vision, we will:

- Manage those business processes that have the potential to significantly impact on the environment, whether internal activities or the information we provide to customers, in accordance with the requirements of the international environmental management standard BS EN 14001:2004.
- Assess the use of natural resources, the direct impacts associated with our office storage and distribution activities and the indirect impacts associated with our procurement practices.
- Comply with regulatory requirements and identify new areas where we can improve our environmental performance, focusing our efforts on those activities with the most significant impacts.
- Set objectives and targets for improved environmental performance and develop and apply suitable key performance indicators that will allow us to track our progress.
- Provide our staff with training and awareness in support of our policy commitments and vision for the environment.
- Disclose information on how we are progressing with the implementation of our policy in a format that promotes the engagement of external stakeholders.
- Use our knowledge of emerging issues to refine and improve our environmental policy.

### Responsibilities

Primary accountability for Safpro Industrial Supply Co's environmental policy statement rests with the Managing Director. The Quality Manager is responsible for the day to day implementation of the environmental policy. The Board of Directors is responsible for reviewing the policy statement and Safpro Industrial Supply Co's progress with its implementation at regular intervals.
